The image displays six different types of surgical knives, each with a long, tapered handle and a single blade. The knives are arranged in a row, with their names labeled above them. From left to right, they are: Liston, Catlin, Flap knife, Langenbeck, Phalangeal knife, and Interosseous knife. The blades vary in shape and size, with some being longer and more curved than others. The handles are also of varying lengths and shapes, designed for different surgical procedures.

Length of blades		Liston	Catlin	Langenbeck
